QUALITY POLICY

The basic orientation of ProDigiDent is to be recognized for quality in the field of design and development, manufacture and distribution of innovative digital technology and medical instrumentation in dentistry.

ProDigiDent is totally committed to the principles and practice of excellence and conforms to the requirements of the ISO 13485:2016 Quality Management System Standard.

Our primary objective is to consistently provide customer satisfaction in products and services through professional leadership, employee development, expertise, continual enhancement, medical ethics, and social responsibility.

Our Quality Management System provides a framework for process management, control and improving our overall business performance and ensures the fulfillment of our customer's requirements and expectations.

To cultivate and maintain the commitment to continual improvement and communicate the company's goals and objectives to every employee.

ProDigiDent has developed and implemented processes to establish, update and maintain a Quality Management System designed to meet ISO 13485:2016 requirements.

We will work to be the best at what we do, in every phase of our business, at every level.
